

**“EQUIPPED TO MEET YOUR NEEDS”**

## Dragonhyde Hoof Bath Concentrate

...combining quality with innovation

**T-HEXX** Animal Health has developed a new and innovative hoof care product, formulated for use in hoof baths. Trends show that the dairy industry is moving away from traditional hoof bath solutions.

**Dragonhyde** Hoof Bath Concentrate (**HBC**) is a cost effective concentrated solution that promotes normal hoof health for the dairy cow.

**T-HEXX Dragonhyde HBC** is formulated to make 50 gallons of finished hoof bath. Unlike traditional hoof baths that come off once the cow exits the barn.

**T-HEXX Dragonhyde HBC** technology penetrates the cracks in the hoof providing a long lasting barrier that remains on the hoof under environmental pressures. Stays on even hours after being exposed to mud, urine and manure slurry.

**Costs less than buying other cleaning products and enhancers.**

- *Promotes hoof hygiene*
- *No antibiotics*
- *No heavy metals*
- *Long lasting*
- *Water soluble*
- *Environmental barrier*

## A Hoof Bath With Long Lasting Barrier Qualities!

**T-HEXX *Dragonhyde* HBC** creates a long lasting, highly visible environmental barrier that helps to promote a normal hygienic hoof environment for the dairy cow.

**Product Description:** **T-HEXX *Dragonhyde* HBC** is a blue-green liquid concentrate for dilution in water. The blue-green color gives a highly visible indication confirming the penetration depth of the product in the hoof as well as indicating the status of the impregnation by color intensity. A cleaned hoof once impregnated with a bath made from **T-HEXX *Dragonhyde* HBC** and water will remain on the hoof in any environment.

### Initial Use Graph (first 2 weeks)

Bath Capacity	Pre-Bath	Main Bath
50 gallons	1 gallon	2 gallons
100 gallons	2 gallons	4 gallons
150 gallons	3 gallons	6 gallons
200 gallons	4 gallons	8 gallons

### Maintenance Use (after 2 weeks)

Bath Capacity	Pre-Bath	Main Bath
50 gallons	1 gallon	1 gallon
100 gallons	2 gallons	2 gallons
150 gallons	3 gallons	3 gallons
200 gallons	4 gallons	4 gallons

### General Product Use:

First fill bath with water. Next, slowly pour the correct amount of **T-HEXX *Dragonhyde* HBC** into the bath and gently stir. Use only as directed, in diluted form.

One bath can last for up to 250 cows, depending on the level of manure and urine contamination. If a pre bath is used, the bath may last up to 350 cows.

Product is available in 55 gallon drums. Tote quantities available upon request.
