

“EQUIPPED TO MEET YOUR NEEDS”

Freedom Sow Stall

The Crystal Spring Freedom Stall gives the sow freedom to walk around and exercise and provides a private place to escape, from boss sows, where they can eat and rest.

The trigger gate in front of the sow trips the rear gate down and locks her in.

A positive automatic lock prevents other sows from opening the rear gate from the outside so the sow in the stall is completely protected from competitive sows.

The simple release rear gate allows the sow to go back out with ease and with no training.

hog equipment

Barn workers can lock an entire row in for sorting, checking and breeding. Individual stalls can be locked for removal or treatment of a specific sow. Rubber bumpers are installed on all gates to reduce the noise and wear on the hinges.
